Client Overview

Client: Jake Thompson

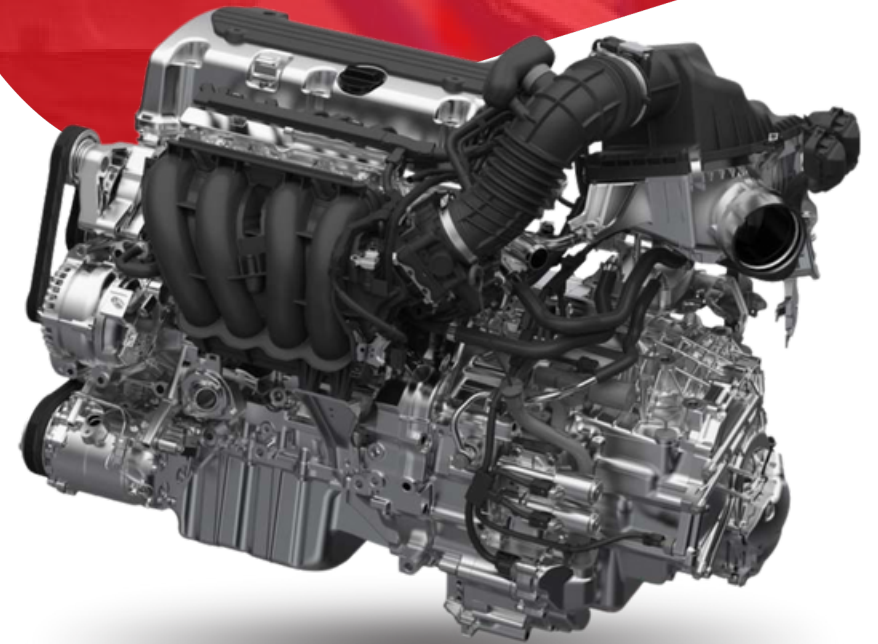

Location: Austin, Texas

Vehicle: 2005 Honda Civic LX

Engine Type: 1.7L I4

Situation: car purchased on a small budget

Jake is a 17 year old high-school student. He saved for months to buy his first car. He found Honda Civic which fits perfectly into his budget. But later he discovered that the engine in in bad condition than he expected.

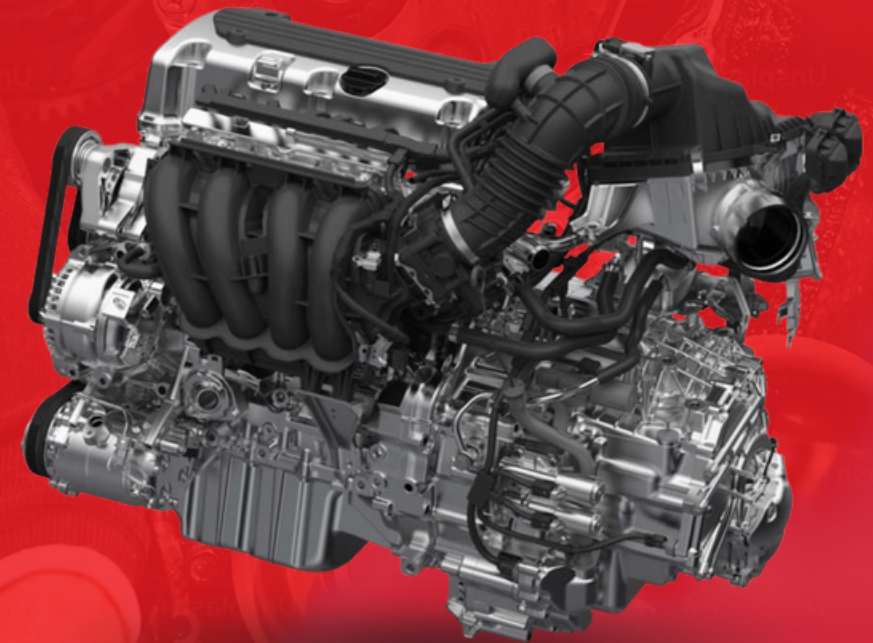

The Challenges

Jake faced some challenges as a first-time car owner:

- **Tight Budget:** He wanted an engine under \$1,500. So, the only option in his budget was used engine.
- **Lack of Experience:** Jake was a first time buyer and needed clear guidance.
- **Time-Sensitive:** He wanted the Civic running quickly for school and part-time work.
- **Reliability Concerns:** Family and friends worried a used engine would just lead to more breakdowns.

‘I thought I had wasted my money on a car that would never even run right. It was frustrating’.

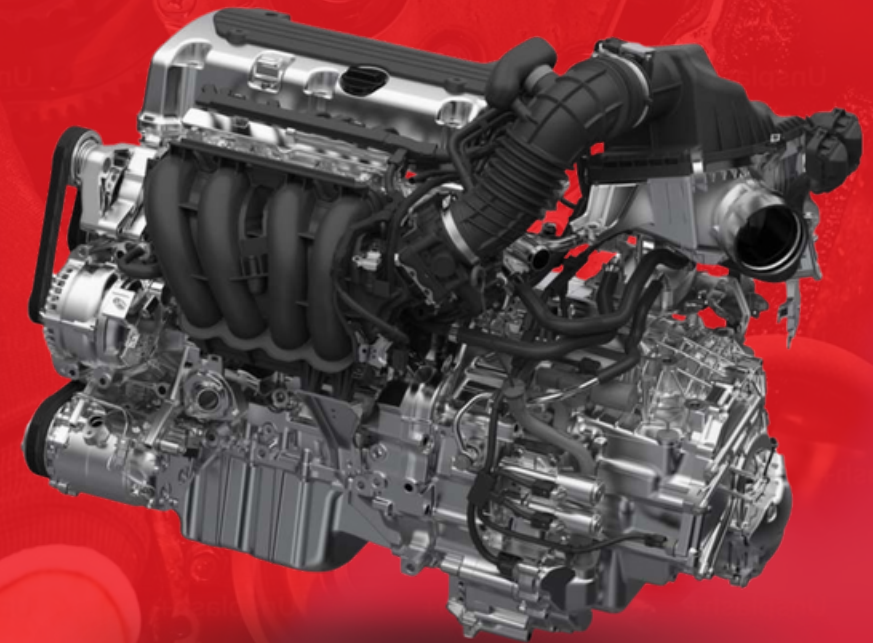

— Jake Thompson

Solution by Used Engine Part

Used Engine Part stepped in with a budget-friendly, reliable solution tailored to Jake's situation.

- **Vehicle VIN Check:** Verified the exact fit of engine for Jake's 2005 Civic LX to avoid compatibility issues.
- **Affordable Option:** We offered him a tested used 1.7L Honda Civic engine with 85K miles in cost-effective price and also offered free shipping.
- **Quality Guarantee:** We also provided him a compression test results and up to 3 month warranty to ease reliability concerns.
- **Guidance Provided:** Our team walked Jake and his local mechanic through the installation process to ensure smooth replacement.

How Our Solution Helped Jake

- **Affordable Fix:** The total project cost (engine + installation help from a family friend) stayed under \$1,450, well within Jake's budget.
- **Restored Performance:** The Civic ran smoothly with no check engine lights, rough idling, and oil leaks.
- **Confidence Boost:** Jake not only got his car back but also learned valuable lessons about car ownership.
- **Peace of Mind:** The warranty and verified testing reassured Jake and his family about the quality of the engine.

Client Testimonial

‘Getting the engine from Used Engine Part saved my first car. Now I’m driving to school and work every day without issues’.

— **Jake Thompson**

The Impact of Our Solution

- **First Car Saved:** Turned a potential junk car into a reliable daily driver
- **Budget-Friendly:** Kept repair cost under \$1,000 for the engine itself
- **Quick Turnaround:** From order to installation in just 5 days
- **Backed by Warranty:** Added trust in buying used parts for the first time

Conclusion

This case shows that with the right supplier, even budget-conscious buyers can restore a reliable vehicle without overspending. Used Engine Part provided Jake with more than just an engine, we gave him the chance to enjoy his first car, save money, and gain confidence on the road.
